## G.W.V.A. Elect

## Officers

## Social Evening Enjoyed

About thirty-five Green War Veterans attended a meeting of the Strathmore G. W. V. A. held in the Memorial Hall on Wednesday evening last, when officers for the forthcoming year were elected.

President R. Gardner occupied the chair. Before proceeding with the election, correspondence was read from the G. W. V. A. inquiring concerning the work that had been done in connection with the pension investigation, and a hearty vote of thanks was passed the Dominion Command for their services to disabled veterans and their families in bringing their cases before the Commission. Membership fees for 1922 were set at \$2.00.

Election of officers took place as follows:

President: P. Naethum; 1st Vice-President F. Young; Secretary-Treasurer: A. S. Hale.

New members of executive, R. Gardner and H. Williams, Hall Manager; R. Gardner, Assistant Hall Manager; J. Johnson.

Relief Committee: Comrades Patterson, Gray, Keeeling, Williams, Van Tielman and French.

Gratitude Committee: Comrades Strathmore, Tierney, Way and Buckmire.

Relief Committees: Comrades MacKenzie, Gardner and Gunn.

A hearty vote of thanks was passed the retiring officials.

Following the conclusion of the annual business the members adjourned to the dining room on the hall, where tables were set and an enjoyable repast was partaken of. Speeches were made by various of the new and retiring officers, and the prosperity of the Strathmore Branch was applauded.

An impromptu musical programme was enacted in Jim Swanson Ed. Staves and several others contributed songs, and Sam Buckley gave several recitations. The members who had served in the war were invited to a special "thank the veterans" reunion ever held in Strathmore. Of course a lot of the old war songs were brought out, and the choruses were sung with much vim.

## NAMAKA NEWS

Most enlivening dance was held here on Friday last. A good number were present and all enjoyed having a good time.

There was no evidence at the dance of any prohibitionists being present, but we learn that some prohibitioners did not arrive home till late in the day Saturday.

One individual reports the air between Strathmore and Namaka was real blue during the early hours of Saturday morning.

Miss Hazel Sim and Mrs. Mildred Weston received their diplomas for Grade XI here.

An aquatic sports appear to be in order on the day east of Namaka. Two agricultural students of last year not being able to stay away this winter have decided to go to the lake. They will have Lloyd and Bill take a dip in Namaka lake and then run to see if they could get home before their chores繁ce. How far they entered out we have not yet learned.

Miss Merchant was a visitor to Galt early last week.

Mr. J. W. McInnis and Mr. H. Epp motored to Calgary last week.

Have you made a date for "Saturday Night"? This Saturday at Strathmore.

## Near Tragedy at Lyleton

## Signalman's Wife in Heroic Action Saves Child

The little flag station at Lyleton, north-west of Cheadle, on the C. N. R., was almost the scene of a tragedy last Wednesday, when the engine of a freight train knocked down the wife and child of the signalman, Mrs. E. M. Moseley.

Mrs. Moseley, whose home is but a few yards from the railroad track, was attending to her household duties when she heard the shrill whistle of an approaching train, sensing that something was amiss, she leaped out of the door and was horrified to see her four-year-old child toddling right in the path of the big freight engine.

## Tried to Stop Train

The engineer sounded his whistle repeatedly and made frantic efforts to stop the train. Distracted all thought of personal safety, she dashed across the track, snatched her child from beneath the very wheels of the engine and then tried to run clear. The engine, which, fortunately, had come to a standstill, was run over, but the child was unharmed.

When the train crept plod her up, she was startled to hear the shrill whistle of an approaching train, sensing that something was amiss, she leaped out of the door and was horrified to see her four-year-old child toddling right in the path of the big freight engine.

## Over to the Signalman

A meeting of the ratepayers of M. D. Bow Valley, having been called by Petition, was held in the Memorial Hall, Strathmore, on Saturday, November 23rd, commencing at 2 p.m.—W. G. W.A.V.A.

22-11-n.

Shadow Social and Dance at Night in Strathmore, on Thursday, November 28th, 1923, at 9 p.m.—Ladies' Committee.

Carried home, with the aid of relatives, the woman was revived. Thinking she had escaped injury, the late crew continued on their trip. Late Wednesday night, however, the view of the accident was made with more realistic vision because so serious that she was removed to the Holy Cross hospital at 12.30 this afternoon.

Mrs. Moseley is still in hospital, but is reported to be doing as well as can be expected.

Forty-two thousand new auto license plates for the province have been ordered for 1923. These will be made with white figures on a black background. Forty,000 auto license plates were issued during the present year.

## Ladies Aid of Catholic Church

are to have a social on Saturday, November 23rd, at the old White Store. Tea will be served.

## Annual Bazaar under auspices of the Anglican Guild will be held in Masonic Hall, Saturday, December 2nd at 2 p.m.

In a great many homes in Western Canada RED ROSE TEA has been the only tea used for over 20 years.

# RED ROSE TEA "is good tea"

Bovril helps you to "turn the corner"

## Thanksgiving

Canadians should not find it hard this year to feel truly thankful on the occasion of their national Thanksgiving Day. Conditions throughout the dominions, as taken at a whole, have improved over those which prevailed a year ago. For the first time in quite a few years, the West has been favored with a really healthy harvest, and the time of when being probably the bane of the Prairie Province.

The result of this return by Nature to the labor of the toilers of the soil is already being seen and felt in a slow but steady improvement in buildings and in the development of an increasing confidence in the future. The West, now that the harvest is in, is beginning to recover from week to week, and month to month, in more satisfactory statements from railway, banks, and Government departments.

The improved economic condition does not constitute the only reason for devout Canadian thankfulness this year. It was only a few weeks ago that Canada was in the grip of a financial crisis, and the British Empire was on the verge of another war—not of its own choosing but one which loomed up as the only means of again protecting the liberties of countless millions of people. Happily, through the exertions of great patriots by the British, coupled with every evidence of equally great determination, war was averted, and the economic condition of the Empire is now rapidly improving. It should be sincerely thanked that they have been spared another such horror.

What does a national Thanksgiving Day mean to the people of Canada? Is it merely a purely formal recognition by the Government that Canada is a called-up nation? Is it a recognition of the fact that Canada is a member of the British Commonwealth? And is the date set apart merely accepted by the people as one of a group of national holidays when the children do not go to school, stores and offices are closed, and the workers take a day off? If this is all that Thanksgiving Day means, then it is a mockery.

Thanksgiving Day an occasion for sincere expressions of gratitude for the many blessings of life, and the people will express their thanks in acts and deeds, as well as in words. Those who have been favored with a full, or fairly share of comforts and prosperity will show their gratitude by extending kindly assistance to others less fortunate than themselves and who may not be in a position to do so. The sick and suffering will be remembered.

As we are our national Thanksgiving Day, so with the anniversary of the Armistice, the people of Canada will, undoubtedly, dedicate themselves to meeting their obligation, which they can never fully discharge, to the men who fought for them in the Great War and who have returned broken in health, and to the mothers and fathers of the men who have died, and to those who now stand in need of such service as our people can render through thoughtful, sympathetic action and unselfish giving.

On Thanksgiving Day, a special offering should be given of Thanksgiving to these soldiers and their families, largely forgotten throughout the year. Let our national giving of thanks be sincere, but let it also be practical and helpful.

Apart from Government departments, there are two outstanding organizations in Canada who are day in and day out all the year around exerting themselves to help the sick and suffering. These are the Canadian Veterans' Association and the Red Cross Society. The former confers itself solely to promoting the welfare of ex-service men and their dependents, while the latter is engaged in the relief of the sick and suffering throughout the country.

Throughout the Prairie Provinces the Red Cross is conducting its annual campaign for the benefit of the Canadian Red Cross Fund. The campaign on Armistice Day the G.W.V.A. hold their annual Poppy Day, the proceeds of which are for the benefit of disabled soldiers.

It is a natural thing for the people to thank their thanks them that by wearing poppy, paying therefore an expression as sincere as they can afford, and by enrolling themselves as members of the Red Cross and thus assist in its Canadian work, they are contributing to the welfare of the sick and suffering, the prevention of disease, and the mitigation of suffering.

Such an expression of thanks will enable these organizations to continue their good work and contribute to the less fortunate from one Thanksgiving Day to another.

# ASPIRIN

UNLESS you see the name "Bayer" on tablets, you are not getting Aspirin at all!

## Londoners Honor Prince

Remarkable Scenes at Public Reception in Guildhall

There were remarkable scenes when the Prince of Wales was entertained by the City of London to mark his return from his eastern tour. Mr. Lloyd George, Asquith, Chamberlain and other ex-ministers attended, and all were received both by the guests at the Guildhall and by the citizens of the city with the greatest of acclamations.

Mr. Lloyd George proposed the health of the Prince, after which it was impossible, owing to the cheering, for him to speak for several moments.

- OF LOCAL INTEREST
- Readers are requested to send items of interest to the Standard to be published Monday noon preceding day of publication. All local news items are welcomed by the Standard. Phone 17 or 68

Last week the skating rink and curling rink were flooded by pumping water from the lake in the park by a centrifugal pump, the work being conducted by the town of Strathmore for the use of our forty-eight hours until the ground was soaked, and there were several inches of water on the rink. The scheme was figured out by Ben Fessenden. Over 600 feet of hose was used to carry the water from the rink to the pump, the water being heated in and both rinks should be ready for business shortly.

The District Court sat at Strathmore yesterday. Judge McNeil presiding. A number of cases were disposed of, details of which will be given in next issue.

Harold Bell undertook a decided public improvement on his own behalf on Monday, when he scraped a lot of loose sand out of the street.

The G. W. V. A. are in receipt of the following donations for the Hall Fund: W. F. Anderson \$10; Chas. Keeling, cash value \$20. The wood will be used in the community hall to take a greater interest in the hall. It is really their hall, the G. W. V. A. having made themselves responsible for its erection and administration to the best of their ability. It should be the concern of all the citizens, for it is a credit to the town and district. A considerable number of promises of support were made during the canvass which have not yet been implemented, and the Hall Committee would be glad to have these now, if at all possible, and new subscriptions, where possible.

The first snow of the season fell on Friday evening and Saturday morning. So far we have had exceptional dry weather.

Do you Xmas shopping early and do it at home. You will get better service for less money in your home town than will anywhere. Watch for Xmas announcements of local merchants.

Mr. R. B. Robson brought in last week some exceptionally fine corn, grown at his home east of Strathmore, also a large turnip.

The Nightingale Ladies' Aid beg to offer an apology for the unauthorized over-charge made at the Halloween dance, and assure their friends this will not occur again.—E. F. RYER, Secretary.

We have received an interesting letter from W. M. Galloway, former Mayor of Strathmore, M. D. and now administrator of the M. D. of Foothills, and who is now residing at Olds, Alberta. His son Melvin is attending the Agricultural School at Olds. Mr. Galloway says:

The people in the district have not come up to the expectation of the spring, but one good thing is with the late rains on hand there is not the shortage of feed there has been in former years, which will make a considerable difference next spring, when the grass is up. The one man in the Foothills who is doing the best is R. H. Riddell. He has a large farm, the day year round, not the better of the crops, but with average moisture this can be overcome, as I have observed that there was some local showers during the early part of the season, the crop was not affected, and the late rains caused considerable trouble, as in most cases the thistles came up owing to the thin crop and the grain had to be cut with headers as it was impossible to use a binder. This caused a great expense, and the price of grain was high, so he did not have much for the farmer after paying harvesting expenses and reserving seed for next year.

I trust the crops around Strathmore are fair and will not have the bad storms of former years and this will at least let them have a fair amount of straw for feeding purposes.

Have you made a date for "Saturday Night." This Saturday at Strathmore.

**Whooping Cough**

The attention of the public is again called to the threatening spread of Whooping Cough. The outstanding feature of this disease at present is that in most cases it is not until the disease has run its course that the parents and sometimes the physicians on their guard will the result that the child is thought to have only a cold when in reality it is the beginning of whooping cough.

It would be of great assistance if cooperation—all the local physicians in the community—will help to keep this disease under control.

Come and enjoy a real treat. Come and enjoy yourselves. Ladies' Club Hall, Cheadle, Alberta.

The Women's Extension Service of the Department of Agriculture maintains a free lending library and clipping service for the use of citizens of Alberta. To the rural population, especially, this is of much practical value. Requests to the department for material range from how to make a hat, pickles, can fruits, or to get rid of a wasp nest, to how to grow a garden, the best kind of a cow, or a cow-calf, etc.

The study of labor-saving devices for the home, nutrition, child welfare, housing, all the varied branches of agriculture, and the like, are included in the work of the extension service.

Presented by the students of the Normal School Dramatic Society.

Admission to Concert 50c.  
Dance afterwards 25c.

**Death of Bob Edwards**

—

With the death of Robert Chambers Edwards, M. L. A., and editor of the "Eye," a unique personality passed from Alberta.

The late Bob Edwards came of a famous literary family the Chambers of Edinburgh, Scotland, and he lived up to the traditions of the race. He was without doubt the cleverest journalist in Alberta. He had a good sense of humour and would have commended his art and become wealthy, but he preferred to live the life of a free lance and to expose what he believed to be wrong in the province, and in the country. He was a good writer and his columns were on Dob condemned and their effect on the ordinary investor, when every other voice in the country was urging on the mad lust of wealth.

There have been journals in Canada that have made it their forte to expose wrongdoing, but it is to be feared that in most cases the objective is either malice or blackmail. This was not so with Edwards. He was not interested by monetary rewards, but when he wrote he wrote anything that was in his opinion, where he was not slow in saying it was wrong.

Many did not agree with his opinions, but there is no doubt that he was the best and good in the community, and that his jokes and quips made many happy. He will be much missed.

Druggists Relieved of Liquor

Druggists in the four cities of Edmonton, Calgary, Lethbridge and Medicine Hat will be relieved shortly of the responsibility of the sale of alcoholic stimulants according to an announcement by Attorney-General Brownlee. The sale of liquor in these cities will henceforth be conducted solely by the provincial government which will nominate the appointment of vendees in Lethbridge and Medicine Hat. In towns and outlying points druggists will continue to dispense liquor on prescriptions, but the quantities will be reduced to six ounces in bottles sealed and supplied by the government.

There will be no provincial income tax legislation introduced at the coming session of the Legislature according to advice sent by Premier Greenfield G.民国 to the premier in answer to an enquiry. The premier has stated that it is not the intention of the government to advance this legislation at present.

## Notice To All Boys ! Scotch Visitor Pleased

Next Week Is The Last For Entries  
To Radiophone Competition

The great opportunity for any boy in this district to win a radiophone with a hearing radius of 2000 miles is now open, but it won't be for long, for the entries will be withdrawn next week, and any candidates who may wish to enter after that must do so by special arrangement with the contest manager.

Scotch boys have been at work in the past two weeks, and have secured votes, but all are practically on an even basis, and the new entrant has a first-class chance to win yet as the competition continues to January 1.

There are several new entrants this week, and the boys in this competition

have been principally from the country. These have had formulated them, and their votes will command a place to climb from this on.

The country boys in this competition

have a good chance to win as the boys from town.

Following is the standing as shown by Monday's count:

Jack Westmorland	16275
W. Gardner	14300
Peter Gardner	12824
D. McLean	12537
D. Miner	2593
W. Gray	1720
George Grant, Standard	16960
E. H. Atkinson, Carseland	16000
E. H. Atkinson, Pincher	16000
H. Wilson, Langdon	16000
Edgar Lewenden, Nama	16000
Bill Craig, Chedale	16000

At the present time the following are tied:

Mr. James Cuthbertson, who was delegated by the Chamber of Commerce, of Glasgow to ascertain trade conditions in Canada with a view to securing new markets opened up for Scottish manufacturers, has now arrived at the Pacific Coast, and visiting all the leading cities of the Dominion, Mr. Cuthbertson seems to be greatly pleased with the reception he got at the various centres he visited.

"The British manufacturer," he remarked to an interviewer, "might have to depart somewhat from his conservative business methods and adopt the advertising system of American business men, and I am sure to this end it was very probable that some of the bigger houses would establish branches for distribution in Canada so that their goods could always be on hand as the consumer purchases them."

The above is from the Glasgow Weekly Herald.

It will be remembered that Mr. Cuthbertson visited Strathmore a couple of months ago, and addressed a meeting at the Strathmore Hall, dealing with the trade situation between Canada and Great Britain.

## Lecture on Cancer

At the present of Strathmore Board of Trade, Dr. Gibson, Calgary, gave an interesting address in the Oddfellows Hall on Tuesday night to the members of the board.

There was a good attendance. Dr. A. W. Girvin presided. The lecture was part of an educational campaign carried on by the Alberta Medical Association, and Dr. Gibson spoke on the first month with the object of arousing the public to the importance of preserving their health and coping with disease before it goes too far.

Dr. Gibson gave statistics to show the mortality caused by cancer throughout the world and stated that last year in Alberta alone two-hundred and eighty-one persons died of this disease. A cancer had reached a certain stage when it could not be put up to a certain point it could be treated successfully in fifty-nine-eight per cent. of the cases which had come before the surgeon in time had been permanently cured. The doctor said that cancer was the woman's disease and if this was used while the cancer was still local, it would be effective.

Cancer was not an infectious or contagious disease. Neither was it hereditary. It was one of the earliest diseases and it was necessary to be recognized while still curable.

Dr. Gibson then went on to give some ways in which cancer could be recognized. It was not a painful disease and this was one of the reasons why it was often allowed to go too far before the doctor was called in. If anyone suspected symptoms of cancer they should lose no time in consulting themselves for examination and, if necessary, for an exploratory operation.

At the close of Dr. Gibson's address a number of questions were asked, and a hearty vote of thanks was passed him.

"SATURDAY NIGHT" IS WORTH SEEING ANY NIGHT  
Cecil B. DeMille's Big Paramount Production Causes Confusion  
"Satin" Studio

Cecil B. DeMille's big production "Saturday Night" was finished one Wednesday night.

Sounds a bit confused, doesn't it? But from the time Mr. DeMille announced the title of his latest picture, he has been asked for the name of the day around the Lasky studio at Hollywood, Calif.

"What are you doing Friday night?" one actor would ask another. "I'm working Friday night on 'Saturday Night'."

"I don't know what you do Saturday night. I am talking about Friday night."

"And I told you in plain English that I'm working Friday night on 'Saturday Night' and I can't accept your invitation."

"You're working Friday night on 'Saturday Night'?" Say, are you crazy or am I? Now listen here: quit this nonsense and tell me: are you working on Friday night?"

"I'm not crazy. I told you and I'll tell you again: I'm working Friday night on 'Saturday Night'!"

"Oh . . . Then come over next week."

When the public sees "Saturday Night" at the Memorial Hall next Saturday they will be insured of an enjoyable evening.

In view of the fact that a large number of British Officers will be demobilized from the army in India shortly,

Briefly ToldPayments Extended  
in Eastern Section

C. P. R. Makes Concession to Settlers in the Eastern Section of the Canadian Pacific Railway. Irrigation project having experienced the inability to make their payments this year, the Midway Company, as will be seen from the letter following, has agreed to make payments fall two months after the harvesting of the 1921 crop.

Demand from market and low prices have been the main factors in inducing the farmers to make this request. It must be remembered also that land in the Eastern Section was sold at higher prices than in the Western Section, and that water rate is three times as much. Water there has not been the same amount as in the Western Section since 1915 as far as the Western Section during this same period. It can readily be seen, therefore, when conditions even have improved, that the people in the Eastern Section were not so fortunate and much disengaged, and it is hoped that in the interval allowed them they will be able to get on to a solid basis again. The letter following appeared in last issue of the "Brooks Bulletin".

The Company has always shown a desire to help the settler through the aid of the settlers in the Eastern Section and in this effort many sections while unable to meet their payments, have retained possession of their land and been assisted further with seed and tools, the latter being in the earlier days of the irrigation project the irrigation blocks and in regard to the ready-made farm scheme.

Dear Sir, Early this spring a petition was presented to our General Superintendent of Lands signed by 272 contract holders in the Eastern Section of the Irrigation Block, pointing out that under the present conditions, they were convinced that it would be necessary for them to turn to methods of farming other than grain growing, and that it would take all the capital they could raise from the sale of crops during the next few years to provide for the purchase of the necessary buildings, fencing, tools, etc., for caring for the same, and praying that the Canadian Pacific Railway Company would suspend all payments due them under the contract, until signed by only a limited number of the purchasers in the Eastern Section, asked for concessions which could not fairly be applied to one section without applying to all.

The question has been carefully considered by the Executive of the Company and I am authorized to advise you that in view of the unusual condition in which the settlers in the Company's lands in the Eastern Section of the Irrigation Block find themselves at the present time, the Company is prepared to offer any reasonable and prompt payment and to make up the difference of the proceeds of this year's crop and next year's crop as well as to defray payment of any principal or interest now in arrears, provided the purchaser of the land is in actual occupation and continues to cultivate and farm the same. The Company will make a written application for the extension of the period of the extension of such other payments as water rental, taxes, insurance on building, etc., are paid in full by the purchaser as they become due.

The Company is constrained to make this concession with a view to encourage its passengers to engage in a vacation on the Pacific Coast.

Mr. Buckley speaks at Carseland on Friday evening in the pool hall. Owing to weather conditions the number who listened to his interesting discourse was not large. According to Buckley, the largest class of men who can be representative in the Provincial House we are indeed lucky. His inference throughout was to the effect that these legislators are like innocent boys who know not the ways of the old political parties, and that, not even their nuns "tear to virtuous sin".

Should you desire to take advantage of this concession on the part of the Company, I have to advise you that when the time comes to do so in 1923, if you have complied with the conditions above set forth, the Company will be prepared to readjust your contract so that payments shall fall due after the 1924 crop is harvested.

Of course it is understood that any purchaser who desires to make a payment or reduction or interest on the part of the Company during the next two years is at liberty to do so, and due credit will be given for the same.

In order that we may know your wishes, I would appreciate your acknowledging receipt of this letter at an early date, so as to advise me whether or not it is your intention to take advantage of this offer.

Yours truly,  
L. P. NAIMUTH,  
Tompkins

The Evergreen Northwest  
Invites You this Winter

## Cheaper Fares!

are offered by the railway companies as a special inducement to spend your winter

In the Temperate Climate  
of the Pacific Northwest  
OREGON, WASHINGTON AND BRITISH COLUMBIA

Thousands of Western Canadians spend their winter at the coast every year. You will meet many of your old-time friends, and you will find the hotel, apartment and boarding house rates reasonable.

Mild climate, green fields, magnificent mountains, open seas, outdoor life all winter with comfort, with an opportunity to see the great orchards, farms, dairies and splendid examples of intensive farming, will make your vacation pleasant and profitable.

Write for illustrated booklet or any information to Herbert Cuthbert, Secretary, Pacific Northwest Tourist Association, maintained by Government funds, L. C. Smith Building, Seattle, Washington.

## Good Country Roads Have A Direct Bearing On Our National Prosperity

The difference between national progress and retrogression may be plainly summed up in facilities of travel and transportation, and the maintenance of good roads is a matter which demands the unwavering attention of a modern country. In no other way does it offer a bid for world prominence. National prosperity lies in a network of comfortable, easily travelled roads, and a country ranks among progressive nations according to its conveniences in accessibility and marketing.

The construction and maintenance of roads in Canada constitutes a problem that is peculiarly difficult. Canada is a land of tremendous areas, scattered and sparsely populated. To adequately link up the settled areas of the country a network of roads is required which would be sufficient to render the entire service. Upon a system of four persons in Canada rests the enormous responsibility of building and maintaining one mile of roadway and upon five average families the cost of one mile of roadway, the outlays under construction 2,297 miles.

### World's Wheat Crop

Increased Production in Both U.S. and Canada

The world's wheat production will be less than it was last year, but considerably greater than the pre-war average. The following figures were published by the United States Department of Agriculture. Actual estimates and condition reports from the two countries indicate a yield of 10,300,000,000 bushels compared with the pre-war last year of 8,986,000,000, and the 1909-1912 average of 8,290,532,000 bushels.

The pre-war consideration in road building in Canada in order to enable the farmer to reach the markets with his product as conveniently and economically as possible, and this has first consideration in the direction of the development of the country.

A second requirement is to maintain good means of communication between the larger centres and to adequately serve and encourage the more settled and more traffic, and the third, including every year, and has become a not in significant asset in Dominion revenue. Each year the increase in the settlement and the number of roads and bridges necessary, the extension of new colonization areas, which can only be effected by the construction of roads which will permit new settlers to get to them with the least degree of difficulty.

Canada is rapidly gaining a reputation abroad for good roads, consequent upon a Dominion-wide policy of co-ordinated effort, due to the foresight of the Dominion government, its departments and their cooperation in construction and maintenance. The Canada Highways of 1919 was a recognition of the importance of this part played in the development of national progress by good roads and elicited the co-operation of all sections of the Dominion in maintaining a high standard. The bill made the sum of \$20,000,000 available during the year. Five years ago, it was decided among the provinces on the basis of population, with the expenditure of proportionate amounts by these provinces to a total of \$50,000,000.

At the present time there are 18,000 miles of main roads in various provinces and networks of communicalations branching off from them to serve the rural areas. In addition to the extension of these new roads, are being constructed each year. These serve to join up the provincial centres and it is now the aim of the various governments to join up the provincial roads and to make the Canada Highways across Canada from coast to coast, an undertaking not difficult of accomplishment and the accomplishment of which may be easily expected.

Excellent roads have been put up all the principal civic centres and the avenues to the international boundary are maintained at a fine standard. Last year half a million motor tourists visited Canada, the United States alone, staying for various periods from one day to six months, and it is stated that the number of visitors staying for over one month has doubled within the past few years. In many cases the upper classes travel a great deal, as Toronto, Hamilton, Ottawa, Montreal, Quebec is paid by the tourist traffic upon them, and the company for the year of the roadway at the Grand Canyon, Arizona, to the south from California in the south to Alberta in the north, linking ten national parks, and constituting the first scenic motor tour on the continent. It is a record of the highest and unprecedented volume of motor traffic.

The importance in every section of the Canadian people attach to the possession of good roads was evidenced at the last good roads convention held in Victoria, B.C., which drew from Atlantic to Pacific cabinet ministers, members of parliament, provincial and civic engineers and prominent business men from all sections of the Dominion, as well as the governors and senators of many states of the Union for the exchange of views and experiences. It marked the half-way house in the progress effected since the passing of the Canada Highway Act and the work of the Canadian government as proposed. To date 264 agreements for Federal aid have been authorized for 5,135 miles of provincial road at an estimated cost of \$29,461,515. The total cost of the equipment required to maintain the equipment and the apparatus used in the construction of the roads is \$15,574,601, and the total amount of payments made with respect thereto is \$5,178,275. The total amount of the equipment and vehicles used to the time was 1,600 miles, the outlays under construction 2,297 miles.

### Faulty Vision the Rule

Examination of 10,000 persons in factories showed that 63 per cent had uncorrected, faulty vision. Of 675 employees on a typewriter company 98 per cent were found to be in need of glasses. Among 3,000 employees in a paper-box factory the percentage of those with normal sight was only twenty-eight.

### Sweden Planning For Radio Station

Total Cost Will Probably be Over Two Million

The Swedish Government has placed an order in the United States for apparatus for a high power radio station to handle direct wireless communications between the United States and Sweden. The total cost of the station erected will probably be over \$2,000,000.

The station will be located in the vicinity of Gothenburg, which is on the west coast of Sweden, and the contract calls for the installation of two 250-kilowatt Alexanderson alternators with which will be connected to a tuned antenna, which will each deliver to the antenna a current of six thousand amperes. The receiving equipment will consist of two complete and independent sets, consisting of the receiver and the necessary apparatus, and will be used in conjunction with the receiving aerial devised for the reduction of static noise.

The need of direct telegraph communication between Sweden and the western hemisphere was emphasized very considerably during the war and immediately thereafter, the former country demanded closer relationships with North America and therefore, more reliable and rapid communication facilities.

### Royal Tactfulness

Late King Edward Showed Fine Quality by Gracious Act

The late King Edward was noted for his tactfulness and it was said to be his chief quality. An example of his tact in behavior occurred during one of his holiday trips. He had occasion to land unexpectedly at a certain Italian seaport, and as it had been raining heavily, the boat he was in was unable to land in the harbor, so he placed at the end of the carpet. When the King had traversed the carpet and came to the flag, he noticed it at once, and instead of waving over it, he lay it flat on the deck of the boat. In respect to the national emblem of the country he was in. This act seemed to irritate the Italian officials holding down a carpet from the pier to the carriage, but it was not quite long enough, and the only thing which they could lay flat on the deck was the flag of the United States, which they placed at the end of the carpet. When the King had traversed the carpet and came to the flag, he noticed it at once, and instead of waving over it, he lay it flat on the deck of the boat.

In respect to the national emblem of the country he was in. This act apparently upset the Italian officials.

It was 25 years ago that Major-General Edward, King of England, was born. Five years before 1896 he had been experimenting on his father's farm in Italy. One year later he signalled into the distance and in two months increased the distance to 10 miles. In 1901 he signalled 20 miles and in 1901 his wireless messages crossed the Atlantic Ocean.

### Silos And Silage For Winter Dairying In Western Canada

#### Picturing Canada the World Over

Natural Resources Intelligence Branch Circulates Many Lantern Slides

"Visual instruction" has become recognized in recent years as practically a correlative of aural instruction. Not only do schools and universities employ it, but in Canada, in particular, it is used by their students, but it has been demonstrated beyond peradventure to be one of the most popular and efficient means that lecturers and other speakers can adopt before public audiences for the dissemination of information. Pictures constitute a universal language. Whether or not an audience can understand the language spoken it can derive some conception of the information it is desired to impart by looking at well-chosen pictures.

During recent years the Federal Government has applied the visual method to the dissemination of information throughout the world a vast volume of information with respect to Canada. One of the chief methods used has been to have professional painters and model makers, such as the Natural Resources Intelligence Branch, as an authorized source of information concerning Canadian resources, circulate thousands of slides every year. While these slides are not necessarily limited to Canada, large numbers of slides depicting Canadian scenes have been used in Great Britain, Continental Europe, Australia, New Zealand, and the United States. Much the greater number of the lantern slides reported by other branches of the Department of the Interior and some of the other departments as well are prepared and issued by the same branch.

The centralization of this class of work should promote economy and efficiency. Further, it should prove to be more and more an influence that results in co-operative effort throughout the public service.

### Radio 26 Years Developing

Progress of Wireless Communication  
Not So Rapid As Might Be Supposed

The progress of radio has not been as fast as its inventors development would lead people to believe. In fact, it has been slower in gaining popularity than the automobile.

It was 25 years ago that Major-General Edward, King of England, was born. Five years before 1896 he had been experimenting on his father's farm in Italy. One year later he signalled into the distance and in two months increased the distance to 10 miles. In 1901 he signalled 20 miles and in 1901 his wireless messages crossed the Atlantic Ocean.

### Ranching Lease in Alberta is Granted To Prince of Wales

Notice of the granting of a ranching lease to His Royal Highness the Prince of Wales, covering the property of the late Sir James Alexander, at the village of Willowmore, Alberta, has been granted to Sir James Alexander.

The lease is issued by the Minister of the Interior, under authority from the Governor-in-Council, covering all the land granted at the rate of one dollar per acre per annum.

It is the first lease issued by the Minister of the Interior in his capacity as the "Fond" of the Department of the Interior, and will cost approximately \$600.

The machine is called the "Mighty Atom" it is six feet high, twelve feet wide, 44 inches wide and weighs 2,900 pounds.

The invention is the result of fifteen years' work, and has been demonstrated to the Royal Agricultural Society of Canada, and well-known farmers of the district.

It is the first machine in the world to be used in the field of agriculture. It is a great saving in labor when compared to using it with a shovel and hoe.

"Another" member of the Dairy Branch staff, who is working in the northeast part of the province, reports much interest in the new machine. There he adds "I think good fields of sunflowers in this district, in fact see fields of sunflowers everywhere in Saskatchewan." The same is also true with regard to new sites, they are in evidence in every part of Saskatchewan.

"In addition to corn and sunflowers there has been a much greater interest this year than there was before in the production of various kinds of crops, not only for winter feeding, but for late summer and fall pasture. This, of course, is not all attributed to preparation for more extensive use of the new machine, but to the more general term of more stock raising or better balanced farming."

### Knights by Denmark

C. Marker, Dairy Commissioner for Alberta, Receives Signal Honor

Christian Marker, Dairy Commissioner for Alberta, has been knighted and officially honored by the Danish Government, and has received well-deserved recognition in having a knighthood bestowed upon him by the Consul-General, who was present at the ceremony.

Marker was knighted on September 13th, 1920, in Copenhagen, Denmark.

Marker's distinction consists in a Danish order, which gives him certain privileges in Denmark and is merely a mark of honor without any pecuniary value.

Marker is a man of great ability and has been a leader in the dairy industry in Alberta, and has done much to help the industry in that province.

WORLD HAPPENINGS  
BRIEFLY TOLD

Alfred Smith, of Newcastle, claims that his three and a half year old son has climbed Skiddaw (3,064 feet) twice.

Two hundred thousand of British troops have landed at Birming-

ham from August 26 to September 5.

British livestock valued at £1,200, given by the Allies Agricultural Re-

lief Fund to Belgium, arrived at Ypres

recently.

General Cullinan, census manufac-

ture, co-founder of the model village at

Wadsworth, died recently at Birming-

ham, aged 82.

These thousand automobiles were

struck by trees at grade crossing in

the United States last year, involving

the loss of 2,600 persons and the

injury of 2,600 persons.

Wadsworth, Longfellow

and Henry Wadsworth

Longfellow and not yet

accused to be appealed to the agents

state controller of New York.

A Lisbon message says that the

Portuguese Parliament has approved

a contract with the Marconi Company

for the erection of wireless stations

in Lisbon, Madrid, the Cape Verde

Islands, and Mozambique, to

be ready in four years.

The port of Montreal established

a new light service, which is of

shin at one time, when the ocean

and coasting vessels were beached

at local wharves. This total,

which does not take into account ves-

els from the Great Lakes, constitutes

a record which is expected to stand

for some time.

The Secret of Good Health

Assist  
Nature  
back  
to  
normal  
action

When Nature requires assistance, she will not be slow in revealing it to you in the form of the fact. "Loss of energy, inability to sleep well, headache, constipation, sluggishness of mind and body and any sign of digestive "unrest" should impel you to seek the aid of a reliable medicine without delay. There is no better—no surer—no safer—than this proven remedy.

## Bakers Bake It For You

—no need to bake at home

HERE's your old-time fa-

vorite, full-treated rais-

ins, treated with salt at eight

temper, raised to the top,

already baked for you by

master bakers in your city.

Simply phone your grocer

or a neighborhood bake shop

and get a fresh loaf for

lunch or dinner to delight

your folks.

We've arranged with bakers

in almost every town and

city to take this full-treated

raising.

Made with big, plump,

tender seeded raisins. The

raisin flavor permeates the

bread. You've never tasted

finer food. Order a loaf and count the raisins.

Raisin bread is a rare com-

modity, a real and

fruit—both good and good for

you. Serve at least twice weekly to get the best results.

Use Sun-Maid for home cook-

ing of puddings, cakes, cookies,

etc.

You may be offered other

brands of raisins, but Sun-Maid is the kind you want to buy. It is the only brand of raisins Sun-Maid bakers. They cost no more than ordinary raisins.

Mail coupon for free book of tested "Sun-Maid Recipes."

### ARDENODE NOTES

Mr. A. J. Smith has informed us that it is difficult to get him to phone at any other hours but most time. The rest of the time he spends dreaming of "wedding bells."

The second annual bazaar given by the U. P. W. A. on November 2nd, was a great success. The hall was crowded by a large crowd. Miss Mary Murphy, teacher of Service Berry School, opened the bazaar in a few well chosen words. A few unused garments, cakes, pies and a turkey donated by Mrs. Murphy were auctioned off. Mrs. Murphy invited me to be a most efficient ladies' man and the ladies cheered him to a hearty vote of thanks followed by singing "For he's a jolly good fellow." After the bazaar lunch was served and the room was cleared for dancing. Miss Gothard, pianist, Mrs. Plesner, violinist.

Mrs. Kingsley, Miss Hulme and Miss Ledger were special guests at the U. P. W. A. meeting held at the home of Mrs. Horricks on November 14th. Mrs. Gothard, Sec-Treas., produced a report of \$107.00 realized from the bazaar. Mrs. Murphy invited me to be a most efficient ladies' man and the ladies cheered him to a hearty vote of thanks followed by singing "For he's a jolly good fellow." After the bazaar lunch was served and the room was cleared for dancing. Miss Gothard, pianist, Mrs. Plesner, violinist.

Mrs. Murphy invited me to be a most efficient ladies' man and the ladies cheered him to a hearty vote of thanks followed by singing "For he's a jolly good fellow." After the bazaar lunch was served and the room was cleared for dancing. Miss Gothard, pianist, Mrs. Plesner, violinist.

Mr. Kingsley, Miss Hulme and Miss Ledger were special guests at the U. P. W. A. meeting held at the home of Mrs. Horricks on November 14th. Mrs. Gothard, Sec-Treas., produced a report of \$107.00 realized from the bazaar. Mrs. Murphy invited me to be a most efficient ladies' man and the ladies cheered him to a hearty vote of thanks followed by singing "For he's a jolly good fellow." After the bazaar lunch was served and the room was cleared for dancing. Miss Gothard, pianist, Mrs. Plesner, violinist.

We all enjoyed the music rendered by Mr. Kingsley, Miss Hulme and Miss Ledger. Mr. O. R. Booth gave an interesting paper on environment, comparing the home life and environment of foreign countries with that of ours of today. The meeting ended as usual with a most interesting lunch served by the hostesses.

The next meeting will be at the home of Mrs. Chas. Dawson, November 21st, 2:30 p.m. Topic—Indian nights, business resolutions, coming to the aid of the next annual convention to be held in our city.

Mrs. Gothard leaves for Calgary Monday to attend the Sec-Treas. convention and the political convention of the U. P. W. A. on November 21st.

### Berta Vale Red Cross

On Friday evening, November 11th, a dinner was held at the home of Mrs. Berta Vale for the purpose of re-opening the branch for the coming year. There was a large attendance which goes to show the great interest which the public has taken in the work of the Red Cross.

The election of officers which was very keenly contested resulted in the following being elected:

President—Laurie Kearns  
Vice-President, May Taylor  
Secretary-Treasurer, Nellie Taylor  
Circumlocution Manager, Audrey Denney

The following said their subscriptions for the coming year: Henry Arthur, Thomas, Ivan, Hamlin, Wallace, Stanley, Victor, Raymond, Audrey, Milton, Fern, Claude, Thomas and Lyle Denney; Nellie, May, Thomas, and Eddie Taylor; Hilda, Eddie, and Eddie Kehan; Laura and Eddie Keenan; G. Boland and John Boland; Mrs. William, Mrs. Roberta, Clinic, Marion Thompson, and Irene Dooley.

The surplus grain of the farmers of the Province which was handled through the government grain elevators at Edmonton is now being sold by the grain boards of the Department of Agriculture. Requests for this grain are now being received at the office of the grain board and those who wish to purchase should apply there.
